

International Conference on Mathematics and Biology  
and 2002 Annual Meeting of the Society for  
Mathematical Biology — Knoxville, Tennessee  
July 13-16, 2002  
*Interdisciplinary Connections in Living Systems*

*The Scientific Committee* for the Meeting includes: Linda Allen, Warren Ewens, Leon Glass, Bryan Grenfell, Leah Keshet, Nancy Kopell, Simon Levin, Mark Lewis, George Oster and Dewitt Sumners.

*The local organizing committee* includes Louis Gross (Chair), Sergey Gavrilets, Eunok Jung, Suzanne Lenhart, Vladimir Protopopescu and Ed Uberbacher.

This meeting is hosted by the Division of Biology, the Department of Ecology and Evolutionary Biology, The Institute for Environmental Modeling and the Department of Mathematics of the University of Tennessee and the Biological and Environmental Sciences Directorate and the Computing and Computational Sciences Directorate of Oak Ridge National Laboratory.

Contact information: Louis Gross  
Gross@tiem.utk.edu

**Plenary speakers:**

Sally Blower    Lisa Fauci    Roger Nisbet  
Lee Segel        Simon Tavaré

**Mini-Symposia and Chairs:**

- \*Cancer Modeling (Robert Gatenby)
- \*Computational Biofluid Dynamics (Eunok Jung)
- \*Computational Biology (Ed Uberbacher)
- \*Education (John Jungck)
- \*Evolutionary Theory (Warren Ewens and Sergey Gavrilets)
- \*Infectious Diseases and the Evolution of Drug Resistance (Sally Blower)
- \*Structured Population and Community Modeling and Ecotoxicology in Honor of Tom Hallam's 65th Birthday (Linda Allen)

Submissions of abstracts for contributed talks and posters will be accepted until April 30.
